Description

Andy's House was founded and is operated by people in long-term recovery and professionals who dedicate their lives to the well-being of others. Our treatments, facility and heart-centered staff make it one of the best available drug and alcohol rehabilitation centers for you or your loved ones.

A typical day at Andy's House consists of a structured program of highly effective therapies, which include group therapy, one-on-one counseling, recreational therapy, yoga, art therapy and group outings. We remain strict with our decision to not accept more than fifteen residents at any given time so that we may offer the individualized attention needed for success. The house is a wonderful old Victorian mansion and has deliberately been set up to make everyone feel welcomed and at home. The seven founders of Andy's House, each have, in some capacity, a personal connection to recovery. Their sole objective is to provide the best care and rehabilitation services available to pave the way to full recovery and full lives. Our success stories speak for themselves and we are happy to offer references upon request.
